SUMMARY

Backend developer with 4 years of commercial experience in PHP and Go. Experienced with both a large high-load monolith and microservices. Focused on third-party integrations: banks and payment services, telephony, scheduling platforms and end-to-end analytics systems. Currently developing and optimising a PHP 7.4 / Yii2 monolith and maintaining three Go integration services in production.

TECHNICAL SKILLS

Languages: PHP 5 / 7 / 8, Go, JavaScript, SQL, HTML, CSS

Frameworks: Yii2, Laravel, Laminas Mezzio

Databases: MySQL, ClickHouse

Message Brokers: Apache Kafka, RabbitMQ

Tools & Infrastructure: Docker, Git, Linux, CI/CD

Integrations: REST API, webhooks, third-party API integration (Twilio, RingCentral, banking and scheduling services)

Other: Monolith optimisation, microservices, legacy code maintenance, production support

WORK EXPERIENCE

Middle PHP Developer

Fitmost | May 2025 - Present

- Develop and optimise a high-load PHP 7.4 / Yii2 monolith as part of the business team, focused on integrations with scheduling services and banks.
- Built three integration services in Go from scratch and maintain them in production.
- Work with MySQL and ClickHouse for data storage and analytics, and with Apache Kafka and RabbitMQ for asynchronous messaging between services.

Junior+ PHP Developer

Roistat | May 2024 - May 2025

- Integrated an end-to-end analytics platform with client websites, setting up around 50 integrations from scratch.
- Ran technical calls with clients to scope integrations and troubleshoot issues on their side.
- Wrote server-side code in PHP and Go and advanced JavaScript for client-side integration code, backed by MySQL.

Junior PHP Developer

amoCRM | January 2024 - April 2024

- Shipped two telephony integrations for amoCRM, Twilio and RingCentral, as part of the integrations team.
- Built both services on PHP 8 with Laminas Mezzio and MySQL, working against third-party telephony APIs.

Junior PHP Developer

Oxem Studio | April 2022 - December 2023

- Joined as an intern and grew into maintaining more than 30 production websites built on plain PHP and Laravel.
- Supported and extended legacy codebases across PHP 5, 7 and 8 with MySQL.
- Handled front-end tasks in HTML, CSS and JavaScript alongside back-end work.

LANGUAGES

Russian - Native

English - B1 (Intermediate)

ADDITIONAL INFORMATION

Open to relocation. Interested in backend roles in product teams, remote or on-site.
